

# Adding information to the Transonomicon

By default, new users can't add or edit content. If you'd like to add new information, please contact me (Elara) at [support@elara.ws](mailto:support@elara.ws) and let me know what you'd like to add or change. I'd also like to know how you got the information and a summary of the information itself so that I can verify it.

Once I've confirmed everything, you'll get permissions for your book, shelf, or chapter, and you can add your resources :3

If you've noticed that any information on The Transonomicon is outdated or incorrect, just let me know where the outdated information is, and if possible, where I can find updated information.

Thanks so much for keeping this resource useful!
